EXPERIENCE

General Assembly — *Software Developer In Training*   New York, NY

May 2018 - Present

- The Software Engineering Career Accelerator, developed by General Assembly in partnership with Cognizant, is a 5-week immersive experience that teaches junior web developers the skills needed to be a full stack engineer.
- Graduates of this training will be experienced in technical areas like full stack java, front-end frameworks like React and/or Angular, test-driven development, devOps, distributed services with AWS, and building/deploying Spring microservices. In addition, this training also covers software lifecycle and agile best practices.

General Assembly — *Web Development Immersive*   New York, NY

JANUARY 2018 - APRIL 2018

PETSY APP

- Led the design and development process of the app by working with a team of 3 other web developers.
- Designed and created the backend necessary for users to search, store,   edit and delete their favorite potential adoptees along with comments on the site.
- Technologies used are Node.js and Express framework for the backend, Postgresql for the database and React as frontend.

CHEF'S DIARY

- Chef's Diary is one of my independent projects where you can manage and organize your recipes. I wrote this simple crud application using Node.js and Express framework for the backend, Postgresql for the database and EJS for user-facing.

OTG Experience — *Multi-Unit Supervisor*   Newark, NJ

NOVEMBER 2016 - NOVEMBER 2017

- Lead kitchen porters and cooks and overseeing the day to day operation of the kitchen, including menu planning, staff scheduling, checking supplies, sanitation and rotating food stock.

United States Navy — *Ship's Serviceman 3rd Class*

SEPTEMBER 2008 - SEPTEMBER 2010 | VFA 115 | Naval Air Station Atsugi Japan

- Collected, organized and handled informations such us flight logs and flight schedules into computer databases for effective record keeping.

FEBRUARY 2005 - SEPTEMBER 2008 | USS Kitty Hawk | Yokosuka Japan

- Responsible for managing and operating shipboard retail and service activities.
